

This is the manual for »(Un)filtered Scenarios«. You received a link that enables you to select one single image out of all the submissions you're about to access. Selecting is very easy, please see below for detailed instructions. Thank you for taking part!

Step 1 – Browse thumbnail-view

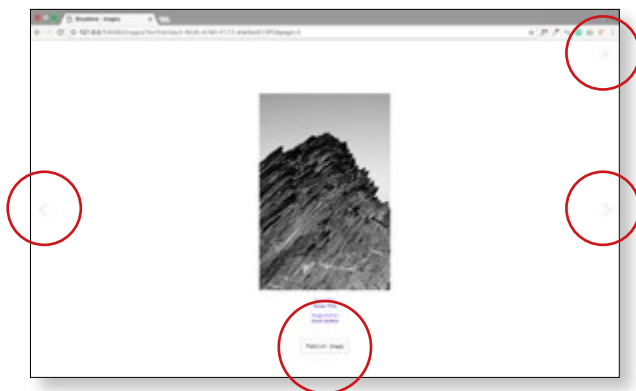

This is the thumbnail-view that you're going to see when opening the link.

Browse through the images using the scroll-bar or your scroll-wheel or trackpad.

When hovering over an image or tapping it on your mobile device, you'll see the image-title and the name of the photographer.

Step 2 – Access and use Fullscreen

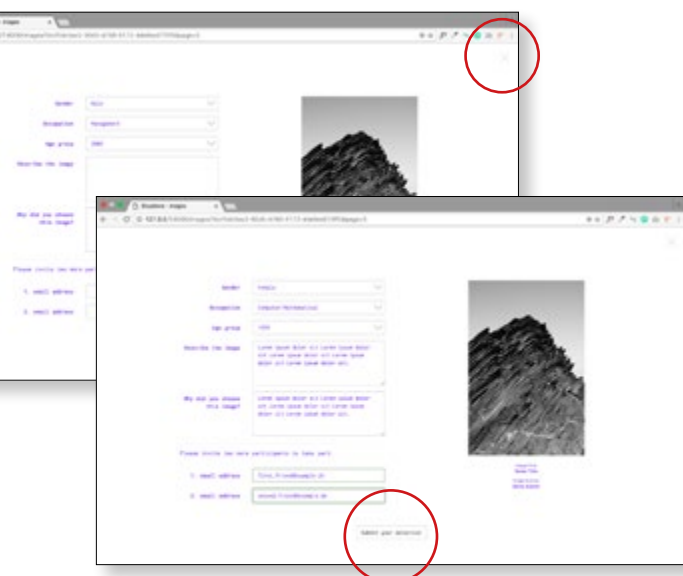

Simply click on the image you want to see in fullscreen.

You can stay in this viewing-mode and click the arrows on the left or right to browse through the images.

Simply click on the „X“ in the upper right corner to leave fullscreen mode.

If you decide that you want to publish this image, simply click on „Publish image“

Step 3 – Publish your selected image

Please fill the required fields.

Before you'll be able to submit your selected image, you need to invite to new participants. Simply enter their email in the required fields.

As soon as you've entered all information necessary, click on the button „Submit your Selection“ (Button turns from grey to black). It might take a second, but that's it! Your selected image will now be part of the project website!

If you decide that this is not the right image, simply click on the „X“ in the upper right corner to get back to the thumbnail-view.

PLEASE NOTE: If you're not able to submit the selected image, it might most probably be due to a missing field (See if frame of one of the fields is red). Please check that before writing an email!
THANK YOU
